

Zoltán Ludvig

Hungary

Was born 1953

Lives and works in Nagykanizsa, Hungary

He works as *freelance painter*

Education

Graduated from the Grammar School of Art, Pécs as a student of graphic designer.

From 1993 he was in charge of organizing and managing the International Colony of Artists „Trofaiach Art” in Austria five years long.

Since 1999 he has been the organizer and artistic manager of „**Ludvig International Symposium**” in Kendlimajor, Hungary.

In 2006, he founded the „Kendlimajor Art Academy” where he leads art courses.

I have been engaged in painting, poster designing and interior design. All of them are domains of art in which you have to meet the exigencies of the time day after day.

In the domain of art the most important thing is to bring yourself up to date, to take part in national and international exhibitions and symposiums for artists. This is the reason why I organize symposiums for artists year by year since 1999 in Kendlimajor, Hungary. I cannot only meet Hungarian and international artist but make myself familiar with styles, schools and trends from their countries. So you can find your place in the world. Through self-fulfilment the world reveals itself to you.

It was important for me to always find painting techniques for my own pictorial world. I did not tell stories and correlations were not shown in my earlier picture. Instead you could see flashes of little wonders of the big story called life. For a few years now, more specific landscape elements have been seen in my paintings. In the last one year I have displays difference characters with birds. Over the past year, I have had the opportunity to take a closer look at the character of birds at an artists 'colony in Slovakia. This made a big impact on me and I found a connection between my painting technique and the bird as an abstract form.

Since then, this topic has occupied me.

My paintings can be found in Hungarian and international galleries, museums and private collections.
